## From Rockets

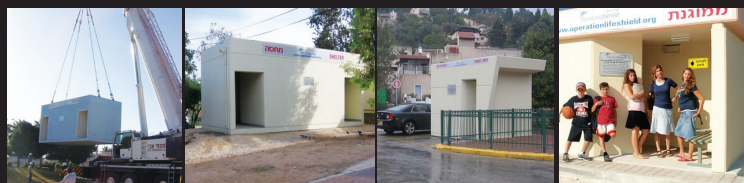

Over 12,000 rockets have been fired into Israel in the last 9 years, causing chaos, destruction and death. An entire generation of children has been traumatized by the fear and terror of ongoing rocket attacks. Israeli citizens deserve a better future.

## To Roses

An Israeli artist, living in the shadow of terror, turns objects of destruction into expressions of peace, beauty and hope. Hand-sculpted art made from actual rockets that landed in Israel are living symbols of Israel's perseverance in the face of terror.

## To Shelters

Millions of Israelis are within striking range of rocket attacks. With only 15 seconds to find cover, lives are in jeopardy. A portion of the proceeds is donated towards building above-ground portable bomb shelters to protect the citizens of Israel.
